

Scam Slap: AI That Talks Back!

The AI That Keeps Scammers Stuck—Forever!

The Mission

Every day, **millions** fall victim to scam calls. But what if we could turn the tables on scammers? Enter **Scam Slap**, an AI-powered voice bot designed to **waste scammer time**, record their tactics, and analyze fraud patterns. Think of it as a **reverse scam defense system**—like setting a trap, but way more fun!

With **Tech Support Timmy**, **Daisy the AI Granny**, and other comedic personas, our AI keeps **fraudsters talking for hours** with **endless nonsense and hilarious responses** while collecting valuable **data on scam tactics**.

How It Works

- 1 **Scammer calls our AI's phone number** (powered by Amazon Connect).
- 2 **Timmy or Daisy engages the scammer** with ridiculous tech talk or Granny wisdom.
- 3 **Bot stalls them forever** with questions about quantum computing or secret pie recipes.
- 4 **AI records and transcribes calls** for scam analysis (stored in AWS S3).
- 5 **Data is processed by AI** to detect scam trends, keywords, and behaviors.

It's **fun, powerful, and will make scammers miserable**!

Why Support This?

- Fights back against scammers** (instead of ignoring them).
- Turns scam calls into entertainment** (laugh while protecting victims).
- Collects real scam tactics data** (help researchers stop fraud).
- Uses AI for good** (leveraging humor and machine learning).

Every pledge **helps us expand Scam Slap**—more AI personas, smarter scam detection, and even **automated reporting** to fraud agencies.

Funding Goals

- **\$10K:** Launch core AI bot & setup **first scam-trap phone number**

- **\$25K:** Develop advanced **voice cloning AI** to **impersonate tech support**
- **\$50K:** Build **live scam tracking dashboard** to monitor fraud trends
- **\$75K:** Create **YouTube channel & content** showcasing scammer fails
- **\$100K:** Scale worldwide, with **multi-language scam-busting bots**
